RESEARCH AND DEVELOPMENT

Waterproofing without Breaking

- We believe that water leakage has to be fixed at source only or else it will divert to new locations.
- Detecting the source of water leakage is essential for fixing of Water Leakage, Water Seepage, Water Dripping, Water Dampness, and Moisture.
- We use various Methods such as EMWLSDP8 Methodology, Ultrasound, Thermography, Thermal Imaging, IR Scanning, Infrared Scanning, Heat Signature Analysis, Physical Inspection, Physical Investigation, Infrared Signature Analysis, NDT, etc to detect the Source of Water Leakages depending upon the Site Conditions.
- EMWLSDP8 Methodology gives you a complete cost effective, time effective, ndt, affordable solution and we resolve it without breaking with 8 Years Guarantee (Electric Media Water Leakage Source Detection Process 8).
- We believe in optimizing resources and technology for you, and being an R&D firm we came up with a EMWLSDP8 Methodology where even if the access to the source of water leakage is restricted physically, our water leakage Methodology gets it resolved for you by getting the treatment done from the negative side (affected leakage area) without Breaking.
- We apply the Waterproofing Material, Waterproofing Chemicals, Waterproofing Dry Powder, Waterproofing Solutions, Waterproofing Liquid Chemicals, Waterproofing Products, Waterproofing Paints, Waterproofing Sealants, Construction Material Chemicals at the SOURCE OF LEAKAGE AREA ONLY as to prevent damages to the High Rise Building, Skyscrapers Towers, Mega Townships, Smart Cities, Property rented by NRI's, Housing Colonies, Co Operative Housing Societies, Duplex Flats, Bungalows, NRI Properties, Non Resident Indian NRI Housing Complexes, Rented Properties, Lease Properties, Properties for Sale, Residential Properties, Commercial & Industrial Properties, Industrial Gala, Udyog Bhavan, Industrial Estates, MSME, MIDC, Factories, Godowns, Shops, Offices, Data Centres, SEZ, IT Parks, Manufacturing Units, Civil Structures, Infrastructure, Mega-structures, Heritage Structures, etc.

Thanumoorthy V

From last 4.5 years there is no Leakage at our site Breach Candy building. I am a Strucral engineer and recommend the service of Electric Media, Waterproofing Without Breaking.

Anant Shintre

We had a severe leakage problem in our house which we were struggling for months before reaching out to Electric Media, who were using a very different technology and method. Their repair was quick, reasonable and non intrusive(for neighbors) with no breakage, a boon for everyone especially in Mumbai. Will recommend to everyone.

Varun Saxena

*We live on 11th Floor of a tall building in Worli. For many years we had a problem of bucketful of water suddenly and randomly oozing out of wall and floor joint in bedroom, 3/4 times a month. We tried many consultants but problem remained. I contacted Mr. Girish Akolkar as he is well regarded in the matters of stopping building leakages. He visited us on the same day , analysed the root cause, brought-in his workmen with special cements, carried out the repair.all this in a period of 2 hours !!
Our problem has got resolved completely, like magic. He is also a great human, a very helpful person.*

Ram Bhagwat

The persisting leakage issue from terrace floor resolved during peak monsoon. No leakage observed mid July-18, despite on going monsoon and we having created water ponding at terrace level. Excellent solution without breakage. Very cooperative team.

Had severe leakage issues in my flat alongwith entire housing society. Mr. Girish has done a perfect job at our resi. Bathroom ceiling had heavy leakages. Other contractors advised to break ceiling of my flat and flooring of flat above me to get job done but only Girish did the job without breaking either flats. Amazing technology. No breakages. Fast and reliable service. Reasonable cost. Now entire society is getting job done! Psst - Take my name - who knows you might get a discount -;)

Vikas Goyal

Fantastic job. Technically and professionally sound services. Mr. Girish personally investigates, inspects and installs the solution to all leakage problems.

Siddharth Jain

It is said water finds its own way... No doubts on that. But for all nasty problems wrt water, Girishbhai and his team has a novel and ingenious way of showing water another way to take... Must say, they provided the best possible solution. Kudos to their entire Team. Anyone having a leakage, must must at the least once consult with them before deciding on whatever final outcome. Thank you Girishbhai, Milind bhai and Team.
